

THEY'RE DOING IT . . . Thirty-five male students met at 11 p. m., September 17, to organize the Aristocats, a pep group. At noon Thursday, they rallied freshmen and others in a rousing session, pictured above with Dr. H. D. Peterson speaking. A bonfire rally, a spirited Bearcat send-off, and a telegram signed by 800 Bearcat fans opened the varsity season in an "aristocratic" mood.

Religious Leader, President Speak At First Assembly

A high percentage of the student body attended the first assembly of the school year held Thursday, September 12, featuring Maryville's Ministerial Fellowship and President J. W. Jones.

The Rev. Howard Judah, pastor of the First Baptist Church, welcomed the students on behalf of the Ministerial Fellowship to the churches of Maryville. His talk emphasized the point that while several different denominations were represented in the assembly, they were all agreed on many basic principles.

Basic Principles

Some of these principles were that the human soul is eternal, that the Bible is God's word, and that the human race needs redeeming and Jesus Christ is our redeemer. President Jones discussed the traffic problem, the building program, and the enrollment, and presented "one small bit of philosophy."

"No one stands alone," Dr. Jones pointed out, but each student in this college is responsible for his own progress. "What you stand for is just as important as what you are against," he added.

Norma Long Presides

Norma Long, student body vice president, acting in the absence of Jerry Overton, president, called the assembly to order and introduced the Rev. George Barger, pastor of the First Christian Church, who in turn introduced the other members of the Ministerial Fellowship.

They were the Rev. Charles Sanders, pastor of the Episcopal Church; the Rev. Rex Anspaugh, Assembly of God Church; the Rev. David H. Thomas, Presbyterian Church; the Rev. A. Beuerman, United Brethren Church; the Rev. Melvin Hill, Laura Street Baptist Church; the Rev. Ralph Hicks, Methodist Church; the Rev. Stephen Korinko, Lutheran Church; Fr. Richard Sallee, St. Patrick's Catholic Church; and the Rev. Judah, who presented the message.

Blackwell Attends Education Meeting

Dr. Dale Blackwell, of the business department, will attend the State Department of Education committee meeting in Jefferson City, today and tomorrow.

The purpose of the meeting is to revise the course of study in business education. Two college teachers, one principal, and eight high school business teachers are on the committee.

Freshmen Button In Kangaroo Court

Whoever heard of a kangaroo court without any kangaroos? Well, every Monday and Friday in front of the Administration building there are approximately 650 kangaroos. To be more accurate, one should say freshmen of N.W.M.S.C.

Green beanies are seen bobbing up and down trying to keep up with the orders of the M-Club. When Dick Powell, president of the M-Club, shouts "button," hundreds of green beanies jump up and shout some indistinguishable phrase.

Freshman Growl

Between these outbursts, this reporter talked to a few of the bewildered freshmen.

"I don't like it." That was the reaction of Don Dougherty from Bedford, Iowa, as he thought of kangaroo court. This statement seemed to sum up the opinions of most of the freshmen interviewed. Most freshmen don't care about wearing the beanies, but think that the signs on their backs are going too far.

However, the upperclassmen all know that deep down in their little uneducated hearts, the freshmen really don't mind regulations.

"I think it's silly. At first I didn't like it, but I don't mind it anymore as long as I don't have to get up front," Joyce Wolf, Maryville, said. Being "up front" seems to be the dread of all the freshmen.

"Up Front" Is Bad

Freshmen who are called "up front" are the "ruthless and law breaking" element of the class. These students have committed a grave crime such as not speaking to an M-Club member, walking in the front door of the Administration building, and of course, the unpardonable sin of removing the beany. For these crimes they are punished according to the severity of the crime.

During all this time the other "freshies" are shaking in their unmatched shoes, waiting for walk-out day and the end of these kangaroo courts.

Campus Groups to Hear Panel on Water Supply

Two campus groups, the Community Teachers Association and the American Association of University Professors, will meet tomorrow night to hear an open discussion of Maryville's new water bond proposal.

The joint meeting will be held in the Union lounge at 7:30 p. m.

Three Maryville businessmen—Mayor Glen Boyles, Lt. Col. Leigh Wilson, and Editor Barney Alcott of the Maryville Daily Forum—will participate in a panel discussion on the water improvement proposal.

The citizens of Maryville are to vote Tuesday, October 8, on a new bond issue to provide an adequate water system for the community. At the present time the water supply does not have the approval of the State Board of Health. For this reason and for others it is important that all citizens be informed on the new bond proposal so that they may cast their ballots intelligently.

Members of the American Association of University Professors will meet for dinner in the Lakeview dining room at 5:30 p. m. preceding the joint meeting with the community teachers.

Miss Bonnie Magill, chairman of the women's physical education department, is president of the A. A. U. P., and Dr. Dale Blackwell is president of the Community Teachers organization.

College Receives Federal Approval On Building Loan

Federal approval for an additional \$235,000 loan for new dormitory buildings was received Monday morning, September 23, according to President J. W. Jones.

The additional money will enable the College to enter into a contract with Thomas Construction Company, and construction will begin in the immediate future.

Preliminary approval was also received for \$400,000 for apartment dormitories for married students. Thirty-two one-bedroom apartments and eight two-bedroom apartments are included in the plan. A full application must be developed and approved, requiring eight to ten months, before work can begin on the project, Dr. Jones said.

Both notices came from the Housing and Home Finance Agency of the Community Facilities Administration.

Open Letter to Student Body . . .

Football season is here! The football boys have been working hard to put out a good team, and the cheerleaders have been working hard to help cheer them on.

What we need is everyone's cooperation to get some really loud support. Thursday, September 12, Lawrence Herkimer, an organizer of the National Cheerleaders Association, was on campus and held an all-day clinic to help the cheerleaders. We picked up some mighty good pointers, the main one being to cut your words off sharp, not dragging them out. We have been working trying to accomplish this effect among ourselves and hope that you will help us at the next pep rally and the first home football game coming up.

Two of our new yells for you to be learning are as follows:
B (clap, clap, clap), E (clap, clap, clap), A (clap, clap, clap)
R (clap, clap, clap), C (clap), A (clap), T (clap), S (clap), BEARCATS (clap, clap, clap), BEARCATS (clap, clap, clap), BEARCATS FIGHT!!

BOOM . . . BAH . . . BEARCATS . . . RAH
BOOM . . . BAH . . . BEARCATS . . .
RAH . . . HEY!!

See ya at the football game.

—the Cheerleaders.

Mrs. Smith Warns Of Virus Infection

Mrs. V. T. Smith of the college health department warns all students to be on guard against a virus infection which is going about the campus.

Several students have been out of school as a result of this infection. Robert Williamson was hospitalized for several days; Sherman Cabines spent a few days at home because of it. Kenneth Hatten has also been ill.

Mrs. Smith states that the symptoms of this virus are a sore throat and those of a common cold. Anyone with these symptoms should receive medical attention at once. She warns that if the virus isn't properly cared for, it could lead to pneumonia.

She relates that the best combat against this virus infection is to dress properly.

"IT APPEARS TO ME ONLY ONE OF YOU TOOK THE TROUBLE TO DO THE OUTSIDE ASSIGNMENT LAST NITE!"

Governor Asks Support of Laws

As President J. W. Jones stated in the opening assembly of the school year, Governor James T. Blair has asked the support of all officials of the State of Missouri in reminding their employees that "compliance with the traffic laws of this state is mandatory if Missouri is to continue this downward trend of traffic slaughter on our streets and highways."

The new speed laws, to which the governor made specific reference in his communication, are as follows:

On federal divided highways, 70 day and 70 night; on federal undivided highways, 70 in the daytime and 65 at night; on all other roads and highways, 65 during the day and 60 at night; through a city, town, or village where no speed is set by local authority the limit is 45 miles per hour, day and night.

Students of this college, by obeying the speed laws of the state and the rules of common sense, can drive in such a way as to protect the lives of themselves and their neighbors.

Human life is a precious thing. Please help to preserve it.

"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will revere and obey the College laws and do our best to invite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

Betty McCaig Begins College Carrying Full Work Schedule

Determination and drive—because Betty McCaig possessed an abundance of these, she got to college. Many of us take higher education for granted, but after we get acquainted with this freshman girl, we begin to appreciate our opportunities.

Betty was completely paralyzed seven years ago as a result of polio. Now, in her wheelchair, the muscles in her legs are strengthening and she can move them about with comparative ease. She can even take short walks around the room or in the dorm halls. Although improvement is much slower in her arms, she can write without aid. She can even type with the assistance of a swinging apparatus attached to her wheelchair.

Sociology is her minor field but Betty is still undecided about her major. After she receives her B.S., she plans to go into personnel work with a private company or with the government. She is looking forward to working with people. She is carrying a full 16 hours—general psychology, English composition, beginning Spanish, Social Science I, and hygiene.

When questioned about how she gets around to classes, she replied, "All of those steps really frightened me, but the APO boys just took over." The APO is Alpha Phi

Betty McCaig

Omega, a service club composed of former boy scouts. They carry her in her chair up the stairs and wheel her to class.

"I never really thought of my condition as a handicap in doing anything I really wanted to do," she said, when she was quizzed about college. She never hopes to have a complete recovery, but she is steadily improving. Betty certainly deserves all that she is working to achieve.

She is living at Residence Hall, but she goes home weekends to New Hampton to visit her parents, Mr. and Mrs. Earl McCaig.

Teacher Explains Jet Shock Waves

Much comment has been heard about the jet planes that were traveling at a speed beyond the speed of sound while on training flights between Kansas City and Omaha recently.

According to Dr. D. M. Cooper, of the physics department, this is what caused the "booms":

A plane traveling at a speed greater than the speed of sound carries with it a shock wave. The shock wave is in the shape of a cone about the nose of the plane and is a very narrow band with large air pressure variation. This variation in pressure is responsible for the explosive noise called the "boom."

As the speed of the plane increases, the tip of the cone becomes sharper and the wave reaches the ground at a greater distance behind the plane. That is why the shock is not felt until some time after the plane has passed.

Ahead of the shock wave no sound is heard. After the shock wave, with its accompanying "boom," has passed, the normal roar of the plane is heard.

The term "breaking the sound barrier" has been applied in the description of the sound produced by these planes, but this terminology is misleading in this case. The sound barrier and the accompanying shock wave were set up soon after the take-off from Kansas City.

The Stroller . . .

THE STROLLER predicts that the campus will present a picture of fall beauty to the college visitors at Homecoming. As he was strolling around the other day, he noted that Jack Frost had already started his autumn job of transforming the leaves into bright bits of color.

MEN, YOU NOW have an excuse for not being chivalrous—at least as far as opening doors for the fairer sex is concerned. New aluminum doors are being put on the front of the Administration building. And, all ye males, they are MUCH LIGHTER than the old heavy wooden ones.

COACH MILNER must really be working his men. The Stroller notices that about one of every ten male students either walks with a limp, has several scratches about the face, or complains of a sore hand "some guy landed on." Last Saturday's game undoubtedly added a few more knocks and bruises. Concerning the Fort Hays game, The Stroller joins the student body in wishing the squad good fortune—both in racking up that score and in dodging those charging tacklers.

THESE COOL mornings aren't for the women's physical education classes—at least for the ones in the gym. Even the lucky girls who wear their sweaters shiver in the breeze. The Stroller thinks that it's good conditioning, however; besides, snow flurries will soon drive the coeds inside.

Dr. Dreps brought back a great deal of historical lore with emphasis on early Spanish civilization, settlements, and the twenty-one Spanish missions of California. While on tour, he visited the campuses of twelve universities and state colleges.

Tigers to Invade the Bearcats' Lair Saturday Night

MSC 'Cats Meet Ft. Hays State In 8:00 Contest

Coach Ryland Milner's sixty-five man squad will battle the Tigers from Ft. Hays State, Saturday, at Memorial Stadium, 8 p.m.

Eleven returning lettermen—Charles Booth, end; John Schulze and Grant Hilburn, tackles; Jack Taylor and Gene Smith, guards; Dick Powell, Gerald Golden, Fred Fuhr, Pete Carrizales, Elmer Clark and Mel Gibson, backfield—are ably backed by an abundance of freshmen and second year men. Of the returning lettermen, only John Schulze and Mel Gibson are seniors.

Doyle Thomas at center and Henry Saggau, a transfer student from Nebraska University, at quarterback, looked good in pre-season practice.

Probable Line-up

Coach Milner's Bearcats are using the winged-T formation again this year and should enter the game with this probable starting line-up: Al Brooks and Ken Stevens, ends; Grant Hilburn and John Schulze, tackles; Jack Taylor and Gene Smith, guards; Vernon Bryant, center; and a backfield composed of Dick Powell, quarterback; Mel Gibson, halfback; Fred Fuhr, fullback; and Larry Schweitzer, wingback.

The co-captains for this year are Dick Powell and John Schulze.

Tigers Have 57 Men

Ft. Hays State Tigers have a reported 57 men out for football from which Coach Wayne McConnell hopes to rebuild from a rather lean 1956 season that included a single win, a 19-13 triumph over the MSC Bearcats, against eight losses.

In seven previous meetings Ft. Hays has taken five and the Bearcats two. The last victory over them for Coach Milner's men was a 21-7 contest in 1953.

Nine Are Lettermen

Ft. Hays has nine returning lettermen, Marvin Stoas, Sr., and Mac Thompson, So., at ends; Dan Johnson, Sr., Paul Riedel, Jr., and Jerome Boor, So., at tackles; Merl Altman, Sr., at guard; and Lester Herrman, Sr., Jim Maska, Jr., and Darrell Hildebrand, So., all in the backfield.

The team will also be bolstered by LeRoy Brungardt, 6'2", 197 lb. transfer student from St. Benedict's College and Norman Pfeifer, 6'4", 240 lbs, who played for K-State's freshman team last year, both sophomore tackles; Warren Siek, 5'9", 193 lb. sophomore, Dennis Stegman, 6', 185 lb. junior transfer from Wichita University; and Dick Knight, 5'6", 143 lbs., who lettered two years at Dodge City, J. O., at guards.

TWENTY-ONE YEARS . . . Coach Ryland Milner has helped carry the ball for the Bearcats. Pictured with Coach Milner are co-captains, left, John Schulze, senior lineman, and right, Dick Powell, junior quarterback.

Ronnie Leonard and Jim Hooten, both sophomore quarterbacks; Al Norton, junior halfback, also a two year letterman at Dodge City J. C.; and Chuck Vernon, sophomore transfer from Wichita University, should give depth to the backfield.

St. Joseph Pumas Edge 'Cats 44-0

The Pumas from St. Joseph, Ind. rebounded from a 13-31 setback at the hands of Xavier of Cincinnati to pin a 44-0 loss on the MSC Bearcats. It was the first win of the season for the NAIA co-champions of 1956.

The Pumas scored in every quarter with seven different players crossing the goal line. The longest run of the day was a 92 yard sprint from scrimmage by Les Klein; however, scoring honors for the afternoon

went to Keith Fingerhut with a touchdown and one conversion.

The Bearcats' biggest threat came near the end of the second period of play but the drive stalled on the 18 yard line. Continually finding a stone wall in their path, the Bearcats could gain only 21 yards on the ground and another 53 yards in the air. St. Joseph gathered in 485 yards with 383 yards coming on the ground.

Random Shots . . .

With football season now underway, Coach Ryland Milner and his squad are looking forward to a successful season. Along with returning lettermen are promising freshmen John Peterson of St. Joseph, and Duane Abbot, of Creston, Iowa.

Perhaps one of the strongest positions on the team this fall will be the quarter-back spot with either Dick Powell or Henry Saggau calling the plays. Both boys are good passers and good runners as well as excellent ball handlers.

Kenny Stevens, who was moved from halfback to the end spot, should bolster the position which was weakened by graduation. Another shift which should benefit the Bearcats is that of Grant Hilburn, who was moved from end to tackle.

Fred Fuhr has proved to be one of the hardest driving fullbacks Maryville has seen in years. With material like Fred the Bearcats should be rough this year.

The first opposition for Maryville, St. Joseph College of Rensselaer, Indiana, shared the national small college title last season at Little Rock, Arkansas, in the Aluminum Bowl.

This Is Football?

This year, the MIAA football conference could very well be a toss up, as after two weeks of play, the league record stands at one win, 34-0 triumph over Carthage College of Illinois by the Rolla Miners; on tie, a 7-7 ball game between Springfield and William Jewell and eight losses with every team picking up at least one.

Rolla heads the conference with one win and one loss in nonconference games while Kirksville and Cape Girardeau dwell in the cellar with two losses apiece. All games scheduled for next week are still non-conference contests.

Mr. Funk & Mr. Wagnalls

"In re this matter of Good Taste," said Mr. Funk to his secretary, "take a definition."
"Taste: sensations . . . excited . . . by the . . . action of the gustatory nerves . . ."
"And add this," put in Mr. Wagnalls. "Taste: the faculty of . . . appreciating the beautiful . . ."
"That," said Mr. Funk, "wraps it up. Mr. Wagnalls, will you join me in a Coca-Cola?"
"So good in taste . . ."
"And . . . in such good taste!"
